

WHEN IT RAINS, IT POURS: HEALTHCARE RANKS #1 IN BREACH COSTS

IBM and the Ponemon Institute released their annual [2021 Cost of a Data Breach Report](#) that lists healthcare as the industry with the highest breach costs of all sectors for the 11th year in a row.

RETURN ON INVESTMENT

Ethical Hacking & Penetration Testing

Identify the security exposures in your network that could lead to a breach or ransomware event

WHAT OUR CLIENTS ARE SAYING

Where we sit now, the wins we've had and ability to demonstrate value has been absolute homeruns, 5 out of 5 rating. If I could give a 10 rating, I would. We would not be where we are today without this relationship. Meditology brings the brainpower to solve problems and provides us with a system and gives us a great starting point versus us creating from scratch.

– Director in Business Risk Solutions,
Very Large Multi-State Healthcare Provider

You don't know what you don't know. What Meditology brought to the table during our engagement was of exceptional value to our organization.

– Information Services Security Manager,
Large Health System in Texas

It's rare that you deal with a vendor where everyone you deal knows their game. From the first sales call onward, there was never a time where I thought anyone on the Meditology Team was less than excellent. Everyone knew what they were talking about and it made me feel good.

– IT Architecture Security Lead,
Large Academic Medical Center

Meditology's Tabletop Exercise engagement was of exceptional value. I trusted Meditology based on my prior history with the Firm. The knowledge and communication the team brings is second to none. I wanted my C-levels to see the value Meditology brings and the interaction, and they all thought Meditology brought industry specific knowledge and were appreciative of the multiple sessions to get the content of the tabletop exercises right. Those sessions were joined by Meditology leadership which spoke volumes to our leadership.

– Senior Manager of Information Assurance,
Ivy League Academic Medical Center

Contact our team here at Meditology for more information and guidance to support your cybersecurity program.
